

Setting up Zotero

Installing and Configuring a Zotero Library

1. Create a free Zotero account
 - Go to www.zotero.org and select Register (upper right hand corner)
 - Fill in the registration information and verify the account via your email
2. Install a library
 - Go to www.zotero.org and click on Download Now
 - Choose *Zotero Standalone*
 - Also install a browser extension (below) to link your library with your preferred browser

3. Configure your library
 - In your Zotero library, click on the gear icon and select preferences → Sync:

- Enter in your account information
- Click the Green sync button in the upper-right hand corner

4. After you've synced Standalone and your browser, try the following:

- Go to a library database and locate an article
 - Save to Zotero with your browser extension
- Go to Standalone and create a folder
 - Drag your new item into this folder
- Check to see if Zotero grabbed the full text or a screenshot of your item
- Add a note or tag to your item

For more questions visit the library's Zotero Guide: <http://davidson.libguides.com/zotero> or e-mail askalibrarian@davidson.edu
